HOGANSVILLE NURSERIES

JOHN WILKINSON, PROP.
HOGANSVILLE, GEORGIA

WE TAKE MUCH PLEASURE IN PRESENTING our Annual Descriptive Catalog. We have endeavored to list and describe our stock of Evergreens, Flowering Shrubs and Trees, Deciduous Trees and Vines in a manner that will enable you to visualize the plants or trees as they will eventually appear on your own grounds. In listing the various varieties we have adhered to the recommendations made by the American Joint Committee on Horticultural Nomenclature.

We are pleased to extend a cordial invitation to all of our friends and customers to visit us at our nurseries located on the main highway between Atlanta and LaGrange. Come and select the plants you will need to beautify your own grounds. The quality of our stock is the best that can be produced and with our frequent transplanting and root pruning we deliver to you plants that have a mass of short roots close to the main stem and with the proper care, should live and thrive when planted in your ground. Our nurseries are inspected by the State Entomologist.

TERMS—Cash with order, except to persons who satisfy us as to their responsibility. Remittances may be made by bank draft, Postal or Express Money Order or certified check.

SUBSTITUTION—The varieties you select are always sent unless you grant permission to substitute. If you wish a particular color, rather than a particular variety, many times it is to your advantage to mention the fact, as we may oftentimes improve upon your selection. Therefore, if a substitute is acceptable, be sure to advise us, as otherwise everything is shipped absolutely as ordered.

ORDER EARLY—Orders are filled in rotation. Ordering early will insure the reservation of varieties that later may be sold out, and save you any disappointment.

TIME OF SHIPMENT—Unless you give a specific shipping date, your order will be shipped to arrive at the proper time to plant in your locality. If you wish your order shipped at any special time please advise us.

PACKING—All plants are carefully packed to prevent drying or freezing while in transit. All packing charges are included in catalog list price except for specimen stock of unusual size, which will be at cost.

HOW WE SHIP—We prefer shipping by express, customer to pay the charges. If you prefer sending by parcel post, add 10 per cent to your order. This applies to evergreens and shrubs.

ACCURACY OF DESCRIPTION—All descriptions and other matter in this catalog will be found to be as nearly in accordance with actual facts as it is possible to write them, great care having been taken to avoid exaggeration in descriptions of varieties.

IN ORDERING, please give plainly the name, postoffice address and state. Always tell us how you want goods to come, and name your express or freight station. Make out orders on separate sheet from your letter.

GUARANTEE—We guarantee all nursery stock furnished by us to be first-class and true to name. We exercise the greatest of care to have all our trees and plants true to name, well grown, packed in the very best possible manner and hold ourselves in readiness on proper proof to replace all trees and plants that may accidentally prove untrue to label, free of charge or refund the amount paid.

We do not guarantee stock to grow, or results in any way. No complaints will be entertained that are not made immediately on receipt of stock.

Coniferous Evergreens

Coniferous Evergreens (cone bearing evergreens) are essential in almost every plan for beautifying the home and surrounding grounds. They can be set in groups, with shrubbery, along the foundation of the house or can be used singly as specimens. In the winter time, when most other plants are dormant, the absence of other colors helps to bring out their beauty of form in a very striking manner.

They should be carefully handled when transplanting to assure continuous, vigorous growth. All specimens shipped from our nursery are dug with a ball of earth surrounding the roots, securely burlapped for shipping. This assures you of receiving plants with practically the entire root system and when transplanted to your ground they will live and continue their growth. Do not remove the burlap from the roots but just loosen the string at the top. The burlap soon rots and the roots are able to penetrate it without difficulty. Be careful not to overwater them until they become firmly established. Letting the ground around the roots become waterlogged can do a great deal of harm, but see that the ground does not actually dry out.

Evergreens once planted and established shift for themselves and require but little pruning which is best done in the spring before the new growth starts.

CEDARS (*Cedrus*)

DEODAR CEDAR (*C. deodara*)—A true cedar which makes a beautiful tree of from 50 to 75 feet. Foliage is feathery, and of a pleasing blue green color; its lower branches gracefully sweep the ground giving the tree a stately appearance. Our stock is in excellent shape and we can furnish large specimen trees at special prices.

CEDAR OF LEBANON (*C. libani*)—One of the most prominent species, so often mentioned in Sacred History. It is one of the most beautiful evergreen trees for lawn decoration. Reaches a height of thirty feet or more and the trunk will measure five feet or more in circumference.

ATLAS CEDAR (*C. atlantica*)—A large tall evergreen, with horizontal branches. One of the most beautiful of all the conifers. So picturesque do the trees become with age that a large reservation of them in Algeria is visited by hosts of tourists each year. Ultimate height 120 feet.

18 to 24 inches	\$1.50 Each	\$15.00 Doz.
24 to 30 inches	2.00 Each	20.00 Doz.
30 to 36 inches	3.00 Each	30.00 Doz.
3 to 4 feet	4.00 Each	40.00 Doz.
4 to 5 feet	6.00 Each	60.00 Doz.
5 to 6 feet	7.50 Each	75.00 Doz.

Deodar Cedar

(These prices apply to all of the above varieties)

Sawara Retinosporas

RETINOSPORAS (*Chamaecyparis*)

A very interesting and important group of conifers for park, lawn, mass plantings and in the smaller sizes, for porch boxes and tubs. They grow best in moist, well drained soil; and in partly shaded situations. They are rather pyramidal in habit and are among the most attractive and easiest handled coniferous evergreens we have. Can be kept small by spring pruning.

PLUME RETINOSPORAS (*C. pisifera plumosa*)—Some times called Plumed Cypress. The foliage of this is a greyish green, very fine cut with a feathery appearance. Similar to a fine cut fern frond. Will make a wonderful specimen if kept sheared.

GOLDEN PLUME RETINOSPORAS (*C. pisifera plumosa aurea*)—Like the green form above; of a golden yellow color. Useful for contrast planting in foundation work or lawn groups.

12 to 15 inches, compact	-----	\$1.00 Each	\$10.00 Doz.
15 to 18 inches, very compact	-----	1.25 Each	12.50 Doz.
18 to 24 inches, very compact	-----	1.50 Each	15.00 Doz.
24 to 30 inches, very compact	-----	2.00 Each	20.00 Doz.
30 to 36 inches, very compact	-----	3.00 Each	30.00 Doz.
3 to 4 feet, very compact	-----	4.00 Each	40.00 Doz.
4 to 5 feet, very compact	-----	5.00 Each	50.00 Doz.

(The above prices apply to both varieties)

SILVERTIP RETINOSPORAS (*C. pisifera plumosa argentea*)—A dwarf variety of compact, globular growth. Foliage soft and graceful similar to the Plume variety; edges silver tipped. Useful for border of formal beds, small urns, etc.

12 to 15 inches	-----	\$1.50 Each	\$15.00 Doz.
15 to 18 inches	-----	2.00 Each	20.00 Doz.
18 to 24 inches	-----	2.50 Each	25.00 Doz.

SAWARA RETINOSPORAS (*C. pisifera*)—A hardy, rapid growing tree, the foliage of which resembles the Arbor Vitae. Open and tall in growth, with erect branches pendulous at tips. When sheared, the foliage develops its true color especially well. The bright green foliage is very lacy in appearance with a silvery color underneath. Makes a very attractive specimen on the lawn.

GOLDEN SAWARA RETINOSPORAS (*C. pisifera aurea*)—A bright golden form similar to the green form described above. An ideal type for corners in foundation planting, especially against a dark brick. Especially desirable for city planting.

MOSS RETINOSPORAS (*C. pisifera squarrosa*)—The soft beautiful silvery blue foliage is very fine cut and very lacy in appearance. Growth dense; shears well and shows to best advantage close against dark greens. If left to grow naturally it is unusually attractive. Do not plant in sooty or dusty locations.

THREAD RETINOSPORAS (*C. pisifera filifera*)—An unusual evergreen, broad and bushy, with long stringy foliage and tasseled ends. Pyramidal in outline and bright green in color. Makes an especially fine variety for specimen planting.

18 to 24 inches	-----	\$1.00 Each	\$10.00 Doz.
24 to 30 inches	-----	1.25 Each	12.50 Doz.
30 to 36 inches	-----	1.50 Each	15.00 Doz.

(These prices apply to the above four varieties)

HINOKI CYPRESS (*C. obtusa*)—A slender rapid growing plant, rather open in habit, with cupped foliage of a dark green color; usually of medium height. Prefers a rather fertile soil.

LAWSON CYPRESS (*C. lawsoniana*)—A very graceful plant of medium height. An erect grower, broad at base, tapering to a point at the tip, with drooping branches, under surface of foliage silvery, upper surface dark green. Make an ideal lawn specimen. Grows best in a dry, well-drained situation.

DWARF LAWSON CYPRESS (*C. lawsoniana nana*)—Similar to the Lawson cypress but of smaller growth. Excellent as specimen when planted in a tub or urn.

18 to 24 inches	-----	\$1.00 Each	\$10.00 Doz.
24 to 30 inches	-----	1.25 Each	12.50 Doz.
30 to 36 inches	-----	1.50 Each	15.00 Doz.

(These prices apply to the above three varieties)

CRYPTOMERIA

COMMON CRYPTOMERIA (*C. japonica*)—A splendid evergreen tree, from sixty to one hundred feet high, which comes from the north of Japan. Requires a rich deep soil, with plenty of moisture and protection from cutting winds to fully develop its beauty. Of rapid growth and regular pyramidal habit; foliage resembles that of the Norfolk Island Pine.

18 to 24 inches	-----	\$1.00 Each	\$10.00 Doz.
24 to 30 inches	-----	1.50 Each	15.00 Doz.
30 to 36 inches	-----	2.00 Each	20.00 Doz.
3 to 4 feet	-----	3.00 Each	30.00 Doz.
4 to 5 feet	-----	5.00 Each	50.00 Doz.

CYPRESS (*Cupressus*)

ARIZONIA CYPRESS (*C. arizonica*)—A variety of rather moderate growth and of slender, pyramidal habit; foliage is similar to Cedar in texture, but has a silvery blue sheen; assumes a brown tint in the winter.

18 to 24 inches.....	\$1.00 Each	\$10.00 Doz.
24 to 30 inches.....	1.50 Each	15.00 Doz.
30 to 36 inches.....	2.50 Each	25.00 Doz.
3 to 4 feet.....	3.00 Each	30.00 Doz.

ITALIAN CYPRESS (*C. sempervirens*)—Of compact and shaftlike habit, sometimes attaining a height of 50 feet or more. Foliage is dark green with slight silvery cast. It is most desirable where a formal effect is desired.

	Each	Doz.
18 to 24 ins.....	\$1.00	\$10.00
24 to 30 ins.....	1.50	15.00
30 to 36 ins.....	2.00	20.00
3 to 4 feet.....	2.50	25.00
4 to 5 feet.....	4.50	45.00
5 to 6 feet.....	6.50	65.00

COLUMNAR ITALIAN CYPRESS

(*C. pyramidalis*)

Similar to the above, but grows slightly taller.

	Each	Doz.
18 to 24 ins.....	\$1.25	\$12.50
24 to 30 ins.....	2.00	20.00
30 to 36 ins.....	2.50	25.00
3 to 4 feet.....	4.00	40.00
4 to 5 feet.....	7.00	70.00

PROSTRATE JUNIPER (*J. com. depressa*)—One of the most attractive small Junipers; especially adapted for planting among rocks and on hillsides. Branches are prostrate, foliage a silvery light green. Reaches a height of 2 or 3 feet and spreads about 6 or 8 feet.

12 to 15 inches.....	\$1.50 Each	\$15.00 Doz.
15 to 18 inches.....	2.00 Each	20.00 Doz.
18 to 24 inches.....	3.00 Each	30.00 Doz.

GOLDEN PROSTRATE JUNIPER (*J. com. depressa aurea*)—Similar in form to the Prostrate Juniper, foliage in spring is a light golden yellow, later turning to bronzy green.

12 to 15 inches.....	\$1.50 Each	\$15.00 Doz.
15 to 18 inches.....	2.00 Each	20.00 Doz.
18 to 24 inches.....	3.00 Each	30.00 Doz.

Italian Cypress

ENGLISH JUNIPER (*J. communis*)—Also known as Common Juniper. Makes a dense pyramidal specimen of variable habit. Its feathery foliage is silvery blue in color and lends itself admirably as a specimen, or in groups, or for foundation planting. Very hardy. Height 15 to 20 feet.

12 to 18 inches.....	\$.75 Each	\$ 7.50 Doz.
18 to 24 inches.....	1.00 Each	10.00 Doz.
24 to 30 inches.....	1.50 Each	15.00 Doz.
30 to 36 inches.....	2.00 Each	20.00 Doz.
3 to 4 feet.....	3.00 Each	30.00 Doz.
4 to 5 feet.....	4.00 Each	40.00 Doz.

JUNIPERS (*Juniperus*)

ASHFORD JUNIPER (*J. communis ashfordi*)—This type of Juniper, with short needles of a silvery greyish green deepening into purple shades during the winter, is superior to other types as it does not die out or turn brown in the center and is of a more graceful form than common or Irish Juniper. Of rather compact growth, but spreads outward at the tips as the age of the plant increases. Reaches a height of 6 to 8 feet.

18 to 24 inches.....	\$1.00 Each	\$10.00 Doz.
24 to 30 inches.....	1.50 Each	15.00 Doz.
30 to 36 inches.....	2.50 Each	25.00 Doz.
3 to 4 feet.....	3.50 Each	35.00 Doz.

IRISH JUNIPER (*J. com. hibernica*)—This is a decided columnar form and immediately attracts attention. Erect, slender and formal in habit. Foliage is sage green, and very compact. Used in contrast with other plants for formal effects.

SWEDISH JUNIPER (*J. com. succica*)—Tall growing of formal, columnar habit. The foliage is dense, fairly broad, with drooping tips; in color glaucous green somewhat lighter and bluer than the Irish Juniper.

12 to 18 inches.....	\$.75 Each	\$ 7.50 Doz.
18 to 24 inches.....	1.00 Each	10.00 Doz.
24 to 30 inches.....	1.50 Each	15.00 Doz.
30 to 36 inches.....	2.00 Each	20.00 Doz.
3 to 4 feet.....	3.00 Each	30.00 Doz.
4 to 5 feet.....	4.00 Each	40.00 Doz.

(These prices apply
to the above two
varieties)

English Juniper

Write us for prices and plan of arrangement
for the complete planting of your grounds.

PFITZER JUNIPER (*J. chinensis pfitzeriana*)—The most popular of all the spreading types. The foliage is a grey green both summer and winter; bushy with spreading, plume-like branches. It lays close to the ground and is especially valuable in landscape planting. Will withstand the soot and dusty of cities and lends itself to serve pruning in case it outgrows its location.

15 to 18 inches.....	\$1.50 Each	\$15.00 Doz.
18 to 24 inches.....	2.50 Each	25.00 Doz.
24 to 30 inches.....	3.50 Each	35.00 Doz.
30 to 36 inches.....	5.00 Each	50.00 Doz.
3 to 4 feet.....	7.50 Each	75.00 Doz.

Pfitzer Juniper

CREeping JUNIPER (*J. horizontalis*)—A handsome, serviceable ground-covering type of closely radiating habit. The foliage is thread-like and distended, yet it is dense and prostrate; the color is a healthy light green.

12 to 15 inch spread.....	\$1.50 Each	\$15.00 Doz.
---------------------------	-------------	--------------

SAVIN JUNIPER (*J. sabina*)—A fine dwarf ground cover or filler in Evergreen groups. Foliage a handsome moss green; its main branches protrude from the crown at a 45 degree angle. A good plant for use in cities.

12 to 15 inch spread.....	\$1.50 Each	\$15.00 Doz.
15 to 18 inch spread.....	2.00 Each	20.00 Doz.
18 to 24 inch spread.....	2.50 Each	25.00 Doz.
24 to 30 inch spread.....	3.50 Each	35.00 Doz.

TAMARIX SAVIN JUNIPER (*J. sabina tamariscifolia*)—A beautiful trailing form of Savin, with bluish green foliage. The construction is dense and very fine. One of the best.

12 to 15 inch spread.....	\$1.50 Each	\$15.00 Doz.
15 to 18 inch spread.....	2.00 Each	20.00 Doz.
18 to 24 inch spread.....	2.50 Each	25.00 Doz.
24 to 30 inch spread.....	3.50 Each	35.00 Doz.

WAUEGAN JUNIPER (*J. horizontalis douglasi*)—Ground-covering, closely compact. The beautiful silvery blue color assumes a rich purple autumn hue.

12 to 15 inch spread.....	\$2.00 Each	\$20.00 Doz.
15 to 18 inch spread.....	2.50 Each	25.00 Doz.
18 to 24 inch spread.....	3.50 Each	35.00 Doz.

SPINY GREEK JUNIPER (*J. excelsa stricta*)—An unusually attractive dwarf pyramidal form with very compact bluish green foliage. Vigorous in growth, and not particular as to soil. Its good characteristics are rather difficult to describe, but it is very pleasing wherever used.

12 to 15 inches.....	\$1.50 Each	\$15.00 Doz.
15 to 18 inches.....	2.50 Each	25.00 Doz.
18 to 24 inches.....	3.50 Each	35.00 Doz.

Panoramic View of a Portion of The Hogansville Nurseries at Hogansville, Ga.

RED CEDAR (*J. virginiana*)—A well-known native cedar; sturdy, thrifty and a strong grower. Easily trained into formal shapes. Foliage is compact and a light green in color. Adapted for shade or ornamental purposes.

18 to 24 inches.....	\$1.00 Each	\$10.00 Doz.
24 to 30 inches.....	1.50 Each	15.00 Doz.
30 to 36 inches.....	2.00 Each	20.00 Doz.
3 to 4 inches.....	3.00 Each	30.00 Doz.

SILVER RED CEDAR (*J. virginiana glauca*)—An extremely attractive variety of the Red Cedar. It is more compact than the green form, and can be trimmed to narrow, column-like effect. Has the most decided blue color of all the blue-green trees. Holds its color both summer and winter, and succeeds so well that it is always to be desired.

18 to 24 inches.....	\$2.00 Each	\$20.00 Doz.
24 to 30 inches.....	2.50 Each	25.00 Doz.
30 to 36 inches.....	4.00 Each	40.00 Doz.
3 to 4 feet.....	6.00 Each	60.00 Doz.
4 to 5 feet.....	7.50 Each	75.00 Doz.

VARIEGATED GREEK JUNIPER (*J. excelsa variegata*)—A form of the Greek Juniper, with an extremely slender outline. Foliage is variegated and very compact.

12 to 15 inches.....	\$1.50 Each	\$15.00 Doz.
15 to 18 inches.....	2.00 Each	20.00 Doz.
18 to 24 inches.....	3.00 Each	30.00 Doz.

SPRUCE (*Picea*)

NORWAY SPRUCE (*P. excelsa*)—The most popular of the Spruce family. easy to transplant, hardy and grows rapidly. Pyramidal in shape and makes an excellent specimen; also very desirable as a screen, windbreak or hedge. The needles are dark green in color.

12 to 18 inches.....	\$1.00 Each	\$10.00 Doz.
18 to 24 inches.....	1.50 Each	15.00 Doz.
24 to 30 inches.....	2.50 Each	25.00 Doz.

We will help you plan your grounds.

Write us about your needs.

Norway Spruce

The Arborvitae (*Thuja*)

This well-known group of evergreens includes some of the most beautiful and useful evergreen shrubs we have in cultivation, not only for single plants for the lawn, but for hedges, either high or low, for which they are admirably adapted.

The American or Occidental types are of open growth, short and horizontal with flat pressed branches. The foliage has a delightful fragrance and is of various shades of green and gold.

The Oriental type is of a more compact growth and is peculiar for its flattened branches, which are upright. Foliage varies from a light green to a golden green.

AMERICAN ARBORVITAE (*T. occidentalis*)—One of the most popular types. It is inclined to be conical in habit of growth, fairly compact and of a light green color. Can be trimmed at will or even closely sheared when sufficiently developed.

18 to 24 inches-----	\$1.00 Each	\$10.00 Doz.
24 to 30 inches-----	1.50 Each	15.00 Doz.
30 to 36 inches-----	2.00 Each	20.00 Doz.

AMERICAN PYRAMIDAL ARBORVITAE (*T. occidentalis pyramidalis*)—The most compact and erect of the entire species, being perfectly pyramidal in shape, spreading very little at its base and retaining the shape without shearing. It is almost a counterpart of the Irish Juniper. The color is a deep green and is retained throughout the year. Useful for general planting either as specimens or in groups.

18 to 24 inches-----	\$1.50 Each	\$15.00 Doz.
24 to 30 inches-----	2.50 Each	25.00 Doz.
30 to 36 inches-----	3.50 Each	35.00 Doz.

AMERICAN GLOBE ARBORVITAE (*T. occidentalis globosa*)—This variety most usually forms a dense, low globe; the spread equaling the height. The foliage retains its light green color throughout the winter and is very attractive. Most generally used as specimens in urns or vases and for front line planting.

12 to 15 inches-----	\$1.25 Each	\$12.50 Doz.
15 to 18 inches-----	1.50 Each	15.00 Doz.
18 to 24 inches-----	2.50 Each	25.00 Doz.

HOVEY ARBORVITAE (*T. occidentalis hoveyi*)—A small, hardy tree, very compact and broadly pyramidal. Foliage a light green with a golden tinge; very distinct and desirable variety.

12 to 15 inches-----	\$1.25 Each	\$12.50 Doz.
15 to 18 inches-----	1.50 Each	15.00 Doz.
18 to 24 inches-----	2.50 Each	25.00 Doz.

TOM THUMB ARBORVITAE (*T. occidentalis elwangeriana*)—A low, broad pyramid with slender branches and fine Juniper-like foliage giving it a soft feathery appearance not found in other evergreens. Light green in color; valuable for urns and boxes, also for general planting.

12 to 15 inches-----	\$1.25 Each	\$12.50 Doz.
15 to 18 inches-----	1.50 Each	15.00 Doz.
18 to 24 inches-----	2.50 Each	25.00 Doz.

ORIENTAL ARBORVITAE (*T. orientalis*)—A comparatively low, broadly pyramidal variety. Grows very rapidly and can be used where mass effect is wanted, as a specimen or in a hedge. Shears especially well and it is often necessary to prune it to make it real compact. Holds its bright green color throughout the winter.

18 to 24 inches-----	\$1.00 Each	\$10.00 Doz.
24 to 30 inches-----	1.50 Each	15.00 Doz.
30 to 36 inches-----	2.50 Each	25.00 Doz.
3 to 4 feet-----	3.50 Each	35.00 Doz.

BERCKMAN'S GOLDEN ARBORVITAE (*T. orientalis aurea nana*)—One of the most showy of all the Arborvitae family. The color is an unusually attractive bright golden green which makes it still more attractive.

12 to 15 inches-----	\$1.50 Each	\$15.00 Doz.
15 to 18 inches-----	2.50 Each	25.00 Doz.
18 to 24 inches-----	3.50 Each	35.00 Doz.
24 to 30 inches-----	4.00 Each	40.00 Doz.
30 to 36 inches-----	5.00 Each	50.00 Doz.
3 to 4 feet-----	7.50 Each	75.00 Doz.
4 to 5 feet-----	10.00 Each	100.00 Doz.
5 to 6 feet-----	12.50 Each	125.00 Doz.

American Globe Arborvitae

THE ARBORVITAE (Continued)

GOLDSPIRE ARBORVITAE (*T. orientalis aurea conspicua*)—The most beautiful and artistic of all pyramidal Arborvitae. A compact symmetrical tree, branching close to the ground and tapering gradually to the tip. Its foliage is probably the most golden of all. Excellent in groups or as single specimens.

18 to 24 inches	\$2.50 Each	\$25.00 Doz.
24 to 30 inches	3.50 Each	35.00 Doz.
30 to 36 inches	4.00 Each	40.00 Doz.
3 to 4 feet	5.00 Each	50.00 Doz.
4 to 5 feet	7.50 Each	75.00 Doz.
5 to 6 feet	10.00 Each	100.00 Doz.
6 to 8 feet	12.50 Each	125.00 Doz.

BEVERLYSIS ARBORVITAE (*T. orientalis meldonensis*)—A compact symmetrical tree; foliage a bright green which does not turn brown in winter.

12 to 15 inches	\$1.50 Each	\$15.00 Doz.
15 to 18 inches	2.50 Each	25.00 Doz.
18 to 24 inches	3.50 Each	35.00 Doz.

BAKER'S COMPACT ARBORVITAE (*T. orientalis bakeri*)—A fine pyramidal type which is unexcelled for its tall, columnar growth; soft light green foliage. The plant does not take on character until about four feet high, when it fills out to form an almost perfect pyramid, broad at the base, tapering to a blunt point at top. One of the best of the compact forms, vigorous in growth, intense coloring, and a distinctive appearance.

18 to 24 inches	\$2.00 Each	\$20.00 Doz.
24 to 30 inches	2.50 Each	25.00 Doz.
30 to 36 inches	3.50 Each	35.00 Doz.

Berckman's Golden Arborvitae

Goldspire Arborvitae

SIEBOLD ARBORVITAE (*T. orientalis compacta*) A broad compact type with bright green foliage; very attractive and does well in most any soil.

15 to 18 inches	\$1.25 Each	\$12.50 Doz.
18 to 24 inches	2.00 Each	20.00 Doz.
24 to 30 inches	3.00 Each	30.00 Doz.
30 to 36 inches	4.00 Each	40.00 Doz.
3 to 4 feet	5.00 Each	50.00 Doz.

ORIENTAL PYRAMIDAL ARBORVITAE (*T. orientalis pyramidalis*)—Very attractive, being perfectly pyramidal in shape, spreading very little at its base and retaining its shape without shearing. Foliage is a deep rich green. Very popular for corners, in front of pillars, center or background of group plantings.

18 to 24 inches	\$1.00 Each	\$10.00 Doz.
24 to 30 inches	1.50 Each	15.00 Doz.
30 to 36 inches	2.00 Each	20.00 Doz.

YELLOW COLUMN ARBORVITAE (*T. orientalis elegantissima*)—Very attractive bright green, but not yellow foliage, broad at base, and of compact pyramidal form. Especially attractive in spring and summer.

(See prices of Goldspire for the above)

TEXAS BLUE ARBORVITAE (*T. orientalis texana glauca*)—The foliage of this plant is a fine bluish green turning to a pleasing purple in winter. Similar to the Oriental Pyramidal in the soft texture of its foliage but does not burn out. Fills out to a broad pyramid as they age.

24 to 30 inches	\$1.50 Each	\$15.00 Doz.
30 to 36 inches	2.00 Each	20.00 Doz.
3 to 4 feet	3.00 Each	30.00 Doz.
4 to 5 feet	5.00 Each	50.00 Doz.

Broad-Leaved Evergreen Shrubs

The complete development of a home calls for the correct treatment of the out-of-door units as well as for the furnishing of the rooms inside. There is no group of plants that will add more beauty to the out-of-door unit than the Broad-leaved Evergreen group. Many of the varieties lend beauty both with bloom and their lovely green-colored foliage, especially in the winter time when so many of the Deciduous Flowering shrubs are bare. Our collection is very large and all of our plants have been transplanted frequently which insures you of receiving plants with a thick growth of small feeding roots. The Broad-leaved Evergreens will thrive in almost any well-drained soil, and a few of them will grow in shady places. They require but little pruning except where used as strictly formal plants or hedges.

All of our Broad-leaved Evergreens are shipped to you with a ball of earth and an abundance of roots, carefully burlapped. The prices quoted are for small quantities; if large lots of a hundred or more are required, we can make you an attractive discount.

ABELIA

GLOSSY ABELIA (*Abelia grandiflora*)—One of the most attractive of the newer plants due to the fact that it combines a blooming shrub and evergreen foliage. Its graceful arching branches are covered with clusters of white flowers, tubular shaped flushed with pink, from May to November. The leaves are a glossy green which turns to a purplish bronze in the winter. The Abelia is useful for foundation, border or as a specimen. Grows in dense shade but does best in a sunny sheltered position. During the growing season it is advisable to pinch off the ends of the long shoots. This will make the plant dense and compact.

12 to 18 inches.....	\$.50 Each	\$ 5.00 Doz.
18 to 24 inches.....	.75 Each	7.50 Doz.
24 to 30 inches.....	1.00 Each	10.00 Doz.
30 to 36 inches.....	1.25 Each	12.50 Doz.

AUCUBA

GOLDDUST AUCUBA (*Aucuba japonica variegata*)—An ornamental shrub of medium height (about 10 feet) which withstands dust, smoke and shade. Has large dark leaves which are spotted and flaked with yellow. Used for urns and window boxes, also in mass planting.

HIMALAYAN AUCUBA (*Aucuba himalaica*)—Similar to the Golddust Shrub except it has green, broad-pointed leaves without the spotted effect. Produces quantities of oblong fruit about a half inch long, bright crimson in color turning to a purple shade, making a fine contrast with the rich green foliage.

12 to 12 inches.....	\$1.00 Each	\$10.00 Doz.
18 to 24 inches.....	2.00 Each	20.00 Doz.
24 to 30 inches.....	3.00 Each	30.00 Doz.

Glossy Abelia

An Attractive Foundation Planting

AZALEAS

The most attractive flowering shrubs in the South. They thrive in the common soil of the garden, but in general, they require leaf mould or well-rotted muck and manure to be dug in with the natural soil. A good mulch of leaves or pine straw should be used as the Azaleas are surface feeders. Clay, lime and an excess of potash should be avoided.

HINODEGIRI AZALEA (*A. hinodegiri*)—A dwarf compact Japanese Azalea with bright carmine flowers. The blooms are produced in profusion in the early spring and almost hide the foliage which assumes a reddish appearance in the fall and winter months.

AMOENA AZALEA (*A. amoena*)—Of somewhat stronger growth than the Hinodegiri, but of the same compact, bushy habit. Produces small claret colored blooms. Foliage assumes an autumn bronze tint in fall and winter.

6 to 8 inches	\$1.00 Each	\$10.00 Doz.
8 to 10 inches	1.50 Each	15.00 Doz.
10 to 12 inches	2.00 Each	20.00 Doz.

Azalea

BOX (*Buxus*)

TRUEDWARF BOX (*B. sempervirens suffruticosa*)—Quite extensively used for low hedges, as it is a dwarf, compact shrub. The foliage is a pleasing, bright lustrous green. Of slow growth, and its ultimate height is from four to six feet. Our stock is home-grown and bushy.

4 to 6 inches	\$.15 Each	\$1.50 Doz.
6 to 8 inches	.25 Each	2.50 Doz.
8 to 10 inches	.50 Each	5.00 Doz.

COMMON BOX (*B. sempervirens*)—This is the box-wood most commonly seen in old-fashioned hedges. Of upright habit with small dark green leaves; dense and compact growth. A more rapid grower than the Truedwarf.

4 to 6 inches	\$.15 Each	\$ 1.50 Doz.
6 to 8 inches	.25 Each	2.50 Doz.
8 to 10 inches	.50 Each	5.00 Doz.
10 to 12 inches	.75 Each	7.50 Doz.
12 to 15 inches	1.25 Each	12.50 Doz.
15 to 18 inches	1.50 Each	15.00 Doz.

TRUETREE BOX (*B. sempervirens arborescens*)—Leaves are small, glossy, bright green. Grows in dense roundish form; valuable for formal planting. Succeeds in most well-drained soils, requires protection, however, against extremes of both heat and cold. Some shade is nearly always desirable. Reaches a height of 10 to 20 feet.

8 to 10 inches	\$.15 Each	\$ 1.50 Doz.
10 to 12 inches	.25 Each	2.50 Doz.
12 to 15 inches	.50 Each	5.00 Doz.
15 to 18 inches	.75 Each	7.50 Doz.
18 to 24 inches	1.25 Each	12.50 Doz.

Broad-Leaved Evergreens are among the very best plants for the South. You will make no mistake in planting them.

A charming little summer house placed so as to give a delightful view of the garden as well as making a cosy place to serve tea

ELAEAGNUS

BRONZE ELAEAGNUS (*E. pungens reflexa*)—Also known as the Bronze Oleaster. A vigorous climbing plant, which if given support will make a very desirable vine. It can be pruned and kept as a shrub. The leaves are large, green above and silvery beneath, overspread with a bronze cast; the younger twigs are of a brownish hue.

12 to 18 inches.....	\$.50 Each	\$ 5.00 Doz.
18 to 24 inches.....	1.00 Each	10.00 Doz.
24 to 30 inches.....	2.00 Each	20.00 Doz.
30 to 36 inches.....	2.50 Each	25.00 Doz.

EUONYMUS

EVERGREEN BURNING BUSH (*E. japonicus*)—A handsome, compact, upright shrub with glossy dark green foliage which holds its color all winter. Can be trimmed to most any form or height.

12 to 18 inches.....	\$.50 Each	\$ 5.00 Doz.
18 to 24 inches.....	.75 Each	7.50 Doz.
24 to 30 inches.....	1.00 Each	10.00 Doz.
30 to 36 inches.....	1.50 Each	15.00 Doz.
3 to 4 feet.....	2.50 Each	25.00 Doz.

CAPE JASMINE (*Gardenia*)

CAPE JASMINE (*Gardenia florida*)—A popular evergreen shrub of medium height, with large glossy foliage and white wax-like flowers. Very fragrant and in bloom almost constantly from May until fall.

12 to 18 inches.....	\$.75 Each	\$ 7.50 Doz.
18 to 24 inches.....	1.50 Each	15.00 Doz.
24 to 30 inches.....	2.50 Each	25.00 Doz.
30 to 36 inches.....	3.00 Each	30.00 Doz.

DWARF CAPE JASMINE (*G. radicans*)—A dwarf trailing variety with small glossy foliage and fragrant white flowers. Desirable where a low effect is wanted.

8 to 10 inches.....	\$1.00 Each	\$10.00 Doz.
10 to 12 inches.....	1.50 Each	15.00 Doz.
12 to 18 inches.....	2.50 Each	25.00 Doz.

HOLLY (*Ilex*)

AMERICAN HOLLY (*I. opaca*)—A handsome evergreen, known as the "Christmas Holly" and used for decorations. The leaves are glossy green, rather thick and thorny along the edges. Berries are bright red; quite hardy and adapts itself to varied soil conditions.

18 to 24 inches.....	\$1.00 Each	\$10.00 Doz.
24 to 30 inches.....	2.00 Each	20.00 Doz.
30 to 36 inches.....	2.50 Each	25.00 Doz.
3 to 4 feet.....	4.00 Each	40.00 Doz.

ENGLISH HOLLY (*I. aquifolium*)—The most beautiful of all holly. This plant requires protection during the hot dry summers in the South and during winter months in the North. The leaves are glossy green and berries are scarlet.

12 to 18 inches.....	\$1.25 Each	\$12.50 Doz.
18 to 24 inches.....	1.75 Each	17.50 Doz.
24 to 30 inches.....	2.75 Each	27.50 Doz.

YAUPON HOLLY (*I. vomitoria*)—A small leaf shrub with spreading branches and small, yellowish white flowers which are borne in the spring. In the winter it is covered with scarlet berries. Very effective when planted in groups, or in borders with other shrubs.

12 to 18 inches.....	\$1.00 Each	\$10.00 Doz.
18 to 24 inches.....	1.25 Each	12.50 Doz.
24 to 30 inches.....	1.50 Each	15.00 Doz.
30 to 36 inches.....	2.50 Each	25.00 Doz.
3 to 4 feet.....	4.00 Each	40.00 Doz.

LAUREL (*Kalmia*)

MOUNTAIN LAUREL (*Kalmia latifolia*)—One of the most beautiful and attractive of the broad-leaved evergreen shrubs. Its dark green waxy leaves and masses of pink or rose-colored flowers, which appear in lavish profusion in late spring and early summer. They make a very handsome effect when planted in a mass.

12 to 18 inch, strong clumps.....	\$1.00 Each	\$10 Doz.
-----------------------------------	-------------	-----------

CHERRY-LAUREL (*Laurocerasus*)

CAROLINA CHERRY-LAUREL (*L. caroliniana*)—A hardy evergreen with dark green, glossy foliage; naturally compact and symmetrical in form, it submits to shearing and can be kept in any form at any height. Blooms are yellowish-white and appear in the spring. Useful as a specimen plant or in groups, masses, borders or screens. Very hardy, but prefers the full sun with good drainage.

18 to 24 inches.....	\$1.00 Each	\$10.00 Doz.
24 to 30 inches.....	1.50 Each	15.00 Doz.
30 to 36 inches.....	2.50 Each	25.00 Doz.
3 to 4 feet.....	3.50 Each	35.00 Doz.

ENGLISH CHERRY-LAUREL (*L. officinalis*)

A valuable shrub of great vigor, with beautiful, broad, shining, rich, green foliage. Blooms rarely appear until several years old. Thrives in most soils and situations and are extremely useful for foundation plantings, as they form a dense evergreen background. Attain a height 8 to 10 feet, but can be kept down by trimming.

12 to 18 inches.....	\$1.00 Each	\$10.00 Doz.
18 to 24 inches.....	1.50 Each	15.00 Doz.
24 to 30 inches.....	2.50 Each	25.00 Doz.
30 to 36 inches.....	3.50 Each	35.00 Doz.

GRECIAN LAUREL (*Laurus nobilis*)—Also known as the Sweet Bay Tree and Victor's Laurel. It is a beautiful evergreen shrub or tree which grows to the height of 50 or 60 feet but always retaining its shrub-like character. The leaves have an agreeable aromatic, slightly bitter taste; they are long, narrow and glossy green. Its flowers are yellowish and inconspicuous. Because of the agreeable flavor of the leaves, they are used in cooking and confections.

12 to 18 inches.....	\$1.00 Each	\$10.00 Doz.
18 to 24 inches.....	1.50 Each	15.00 Doz.
24 to 30 inches.....	2.50 Each	25.00 Doz.
30 to 36 inches.....	3.50 Each	35.00 Doz.

HOLLYGRAPE (*Mahonia*)

LEATHERLEAF HOLLYGRAPE (*M. bealei*)—Has broad holly-like leaves of a yellowish green tint and terminal clusters yellow bell-shaped flowers, produced in January, followed by clusters of purple berries. This plant is so different from everything else, it should be found in every collection of choice shrubs. Prefers shady locations and well drained soil.

OREGON HOLLYGRAPE (*M. aquifolium*)—Similar to the Leatherleaf variety except that the leaves turn to various shades of bronze and orange in the winter and the berries are a dark blue. A really handsome shrub rarely exceeding three feet in height; prefers shady locations and thrives in most any soil.

12 to 18 inches.....	\$1.00 Each	\$10.00 Doz.
18 to 24 inches.....	1.25 Each	12.50 Doz.
24 to 30 inches.....	2.00 Each	20.00 Doz.
30 to 36 inches.....	4.00 Each	40.00 Doz.

(These prices apply to both varieties)

TEA OLIVE (*Osmanthus*)

FORTUNE TEA OLIVE (*O. fortunei*)—A beautiful shrub of compact symmetrical form. Leaves are dark green, glossy color, resembling the American Holly. Covered with a fragrant white flower in the spring and fall. Gives best results when planted in rich soil and partial shade and will reach a height of 20 feet.

SWEET TEA OLIVE (*O. fragrans*)—A handsome shrub with serrated leathery leaves, and yellowish or almost white flowers which produce a delightful fragrance in the fall and early spring. Prefers deep, well-drained soil and some protection.

12 to 18 inches.....	\$1.50 Each	\$15.00 Doz.
18 to 24 inches.....	2.50 Each	25.00 Doz.
24 to 30 inches.....	3.50 Each	35.00 Doz.

(These prices apply to both varieties)

JAPANESE PRIVET (*L. japonicum*)—A quick, growing, upright shrub which makes up into striking tall clumps, or informal screening hedges, with wide spreading curving branches; foliage bright glossy green; showy, fragrant white flower plumes in the spring, followed by clusters of blue-black berries. Stands trimming; very vigorous and hardy in most soil and situations.

18 to 24 inches-----	\$.50 Each	\$ 5.00 Doz.
24 to 30 inches-----	.75 Each	7.50 Doz.
30 to 36 inches-----	1.00 Each	10.00 Doz.
3 to 4 feet-----	1.25 Each	12.50 Doz.
4 to 5 feet-----	1.50 Each	15.00 Doz.
5 to 6 feet-----	2.00 Each	20.00 Doz.

SILVERLEAF PRIVET (*L. jap. excelsum superbum*)—Similar in type to the Japanese Privet, but with foliage edged and veined with light silvery white. Reaches a height of 8 to 10 feet.

18 to 24 inches-----	\$1.00 Each	\$10.00 Doz.
24 to 30 inches-----	1.25 Each	12.50 Doz.
30 to 36 inches-----	1.50 Each	15.00 Doz.
3 to 4 feet-----	2.00 Each	20.00 Doz.

NEPAL PRIVET (*L. nepalense*)—A medium size shrub essential to landscape planting in masses, banking or groups. Compact and symmetrical with dark green, glossy foliage, and white flowers early in spring.

18 to 24 inches-----	\$.75 Each	\$ 7.50 Doz.
24 to 30 inches-----	1.50 Each	15.00 Doz.
30 to 36 inches-----	2.50 Each	25.00 Doz.
3 to 4 feet-----	3.00 Each	30.00 Doz.

STANDARD or BAY TREE SHAPED PRIVET—

12 to 15 inch heads, 3 to 3½ foot stems, per pair-----	\$5.00
15 to 18 inch heads, 3½ to 4 foot stems, per pair-----	6.50
18 to 24 inch heads, 4 to 4½ foot stems, per pair-----	8.00
18 to 24 inch heads, 4½ to 5 foot stems, per pair-----	10.00

THE PRIVETS (*Ligustrum*)

GOLDEN CALIFORNIA PRIVET (*L. ovalifolium variegatum*)—A vigorous, compact grower, the young leaves of which have a beautiful yellow tint, passing into white as the leaves get older.

18 to 24 inches-----	\$1.00 Each	\$10.00 Doz.
24 to 30 inches-----	1.25 Each	12.50 Doz.
30 to 36 inches-----	1.50 Each	15.00 Doz.
3 to 4 feet-----	2.00 Each	20.00 Doz.

GLOSSY PRIVET (*L. lucidum*)—Makes one of the handsomest hedges in the South. Large, strong, dark glossy green leaves, and produces dense clusters of white flowers. Useful for securing massed effects in a border as well as individual specimens. Perfectly hardy and highly recommended.

LARGE LEAVED GLOSSY PRIVET (*L. lucidum macrophyllum*)—A very striking plant on account of its large sized leaves and intense dark, glossy green. Similar in habit to the Glossy Privet, but makes a very distinct specimen. Attains a height of 8 to 10 feet.

12 to 18 inches-----	\$.75 Each	\$ 7.50 Doz.
18 to 24 inches-----	1.50 Each	15.00 Doz.
24 to 30 inches-----	2.50 Each	25.00 Doz.
30 to 36 inches-----	3.00 Each	30.00 Doz.

(These prices apply to both varieties)

AMUR PRIVET-SOUTH (*L. amurense*)—Trimmed specimens. The trained specimens of this very hardy southern-grown type are vigorous, upright and tall growing; stand shearing well and do not sprout from the roots. They have all been pinched back and pruned several times during the growing season, and trained to well-shaped heads. They are extremely desirable for landscape work and formal plantings where immediate finished effect is desired. Very effective when planted on grass strips between sidewalk and curb. By trimming frequently you will have a very dense and compact specimen.

GLOBES—Matched Pairs—

15 to 18 inches high, 15 to 18 inches broad, per pair-----	\$3.00
18 to 24 inches high, 18 to 20 inches broad, per pair-----	4.00
24 to 30 inches high, 20 to 24 inches broad, per pair-----	6.00
30 to 36 inches high, 24 to 30 inches broad, per pair-----	8.00

PYRAMIDS—Matched Pairs—

18 to 24 inches high, per pair-----	\$3.00

30 to 36 inches high, per pair-----	6.00
3 to 3½ feet high, per pair-----	7.00

PHOTINIA

LOW PHOTINIA (*P. serrulata*)—A beautiful, hardy evergreen, with large shiny foliage which becomes very conspicuous in the fall as the older leaves take on a brilliant color. In spring the new growth comes out with tinted brown leaves and red stems. White flowers are produced in large flat-topped clusters in early April. Reaches a height of 5 to 12 feet and prefers well drained, fertile soil and partial shade. Our stock is well branched and strong from open ground.

12 to 18 inches\$1.00 Each	\$10.00 Doz.
18 to 24 inches1.50 Each	15.00 Doz.
24 to 30 inches2.50 Each	25.00 Doz.
30 to 36 inches3.50 Each	35.00 Doz.

FIRETHORNS (*Pyracantha*)

SCARLET FIRETHORN (*P. coccinea*)—A compact, much-branched evergreen shrub of low spreading habit. Produces white in flat-topped clusters in the spring, which are followed by a wealth of golden yellow berries. Attains a height of 10 to 15 feet.

LALAND FIRETHORN (*P. coccinea lalandi*)—A tall, growing shrub or tree with small box-like evergreen foliage; more hardy and vigorous than the Scarlet Firethorn. Particularly attractive in winter when it is covered with orange-red berries. Panicles of white flowers are produced in spring; very ornamental when used as a specimen plant.

12 to 18 inches\$.50 Each	\$ 5.00 Doz.
18 to 24 inches75 Each	7.50 Doz.
24 to 30 inches1.50 Each	15.00 Doz.
30 to 36 inches2.00 Each	20.00 Doz.
3 to 4 feet3.00 Each	30.00 Doz.

PITTOSPORUM

TOBIRA (*P. tobira*)—A shrub that is very popular and extensively used in the South. Of compact growth and rounded form with dark green leaves clustered at the ends of the branches. Yellowish white flowers are very fragrant and appear in the early spring. May be used in foundation planting, massing, trimmed as a specimen or as a dense hedge. Prefers well-drained soil and partial shade.

TEA PLANT (*Thea*)

BOKEA TEA PLANT (*T. sinensis bokea*)—Best known as the Tea Plant of commerce. A valuable hardy shrub of medium size and compact, bushy growth; dark green foliage, white flowers with yellow anthers are produced during the fall and winter. Does best in well-drained loamy soil and will stand some shade.

12 to 18 inches\$1.00 Each	\$10.00 Doz.
18 to 24 inches2.00 Each	20.00 Doz.
24 to 30 inches3.00 Each	30.00 Doz.

(These prices apply to Pittosporum and Tea Plant)

VIRBURNUM

LAURUSTINUS (*V. tinus*)—An evergreen bush or low shrub, upright, compact, and of rapid growth; foliage dark green; flowers creamy white, rose-colored in the bud. Produced in great profusion in early February and lasting for a long time. Very fragrant. Desirable as a house plant.

12 to 18 inches\$1.50 Each	\$15.00 Doz.
18 to 24 inches2.00 Each	20.00 Doz.
24 to 30 inches2.50 Each	25.00 Doz.

Barberry

BARBERRY (*Berberis*)

HOLLY BARBERRY (*B. ilicifolia*)—One of the best varieties of the Barberry family. Leaves are of a rounded oval shape, with deeply serrated thorny edges. Strong suckers are thrown out forming a thick clump. The Holly-like leaves take on a purple color in the fall. Does best in shady situations.

18 to 24 inches.....	\$.50 Each	\$5.00 Doz.
24 to 30 inches.....	.75 Each	7.50 Doz.

JAPANESE BARBERRY (*B. thunbergi*)—Probably the most widely planted shrub in existence. It is dwarf growing, uniformly bushy and rounded form. Stands pruning well. The thorny twigs are densely covered with small, numerous leaves; yellow flowers in the spring are followed in the autumn by quantities of small scarlet red berries. The general formation of the plant makes it very useful as a filler and for edging shrubbery groups; as a foundation screen in front of porches and as a compact, impassable, hardy, low hedge for lawns or dividing lines.

18 to 24 inches.....	\$1.00 Each	\$10.00 Doz.
24 to 30 inches.....	2.00 Each	20.00 Doz.

(Special Prices Quoted on Large Lots)

BUTTERFLY BUSH (*Buddleia*)

VEITCH BUTTERFLY BUSH (*B. davidi veitchiana*)—Also known as Summer Lilac. Of quick bushy growth; the flowers which are similar to the lilac in fragrance and color, bloom profusely all summer. Excellent for cut flowers. Should be cut back each spring.

2 to 3 feet.....	\$.50 Each	\$5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.

LINDLEY BUTTERFLY BUSH (*B. lindleyana*)—Similar to the Veitch Butterfly Bush but smaller foliage and blooms, which are of a deeper purplish hue.

18 to 24 inches.....	\$.50 Each	\$5.00 Doz.
24 to 30 inches.....	.75 Each	7.50 Doz.

Hardy Ornamental Flowering Shrubs

There are numerous ways in which the hardy ornamental flowering shrubs can be used to make the grounds around the home more beautiful. While they do not retain their foliage throughout the winter, they fill an important place and present a wide field for the selection of colors, season of bloom and growth. The Spirea, Hydrangea, Barberry, and others of like character are effective for grouping or mass planting against fences or walls. The tall quick growing shrubs like the Dogwood, Hibiscus, and Mock orange may be used to screen buildings, planted to form a hedge or as specimens. All of the varieties described on the following pages thrive in the South and are of good stock, well branched.

BEAUTYBERRY (*Callicarpa*)

AMERICAN BEAUTYBERRY (*C. americana*)—A native plant with feathery blue flowers which grow in clusters about August, followed by bunches of bright purple berries along the stem.

2 to 3 feet.....	\$.75 Each	\$ 7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

Butterfly Bush

SWEETSHRUB (*Calycanthus*)

COMMON SWEETSHRUB (*C. floridus*)—Also known as the Strawberry Bush, a unique shrub with dark green aromatic foliage, which turns yellow in autumn. Has odd shaped chocolate-colored flowers that are spicily fragrant. Thrives in shady situations and is especially suited for planting near trees.

2 to 3 feet.....	\$.50 Each	\$5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.

BLUEBEARD (*Caryopteris*)

BLUEBEARD (*C. incana*)—Blue Spirea; a low shrub, the stems of which are covered with pretty lavender-blue flowers about September. Not entirely hardy in colder sections.

18 to 24 inches.....	\$.50 Each	\$5.00 Doz.
24 to 36 inches.....	.75 Each	7.50 Doz.

REDBUD (*Cercis*)

CHINESE REDBUD (*C. chinensis*)—A shrub similar to our native redbud or Judas tree. Branches are covered in the spring with magenta-pink flowers.

2 to 3 feet.....	\$.75 Each	\$ 7.50 Doz.
4 to 5 feet.....	1.00 Each	10.00 Doz.

DESERTWILLOW (*Chilopsis*)

DESERTWILLOW (*C. linearis*)—A quick growing shrub similar to the bushy willow. Produces beautiful rose-colored flowers all summer. Does best in hot, dry situations.

3 to 4 feet.....	\$.75 Each	\$ 7.50 Doz.
4 to 5 feet.....	1.00 Each	10.00 Doz.

SUMMERSWEET (*Clethra*)

SUMMERSWEET (*C. alnifolia*)—Remarkable for its sweet scented white flowers in July and August. The foliage is a compact mass of rich green in the summer and clear yellow in autumn. Succeeds well in a shrubby border, even though dry.

18 to 24 inches.....	\$.50 Each	\$5.00 Doz.
24 to 36 inches.....	.60 Each	6.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.

HAWTHORN (*Crataegus*)

ENGLISH HAWTHORN (*C. oxyacantha*)—A beautiful small tree or tall shrub, round headed and broad in figure with clusters of large single white flowers; bright red berries in the fall; leaves are deeply lobed. Useful as a hedge or specimen.

4 to 5 feet.....	\$1.00 Each	\$10.00 Doz.
------------------	-------------	--------------

QUINCE (*Cydonia*)

FLOWERING QUINCE (*C. japonica*)—A shrub of great beauty. Very early in the spring it is completely covered with vivid red or scarlet flowers, followed by small fragrant quince-shaped fruit. The foliage is small, dark green and glossy. Does well in most soils and situations.

18 to 24 inches.....	\$.50 Each	\$ 5.00 Doz.
24 to 36 inches.....	.60 Each	6.00 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

BROOM (*Cytisus*)

SCOTCH BROOM (*C. scoparius*)—A beautiful yellow flowering shrub, whose slender and graceful branches are covered with golden yellow pea-shaped flowers. The numerous long twigs, resembling broom straws, remain green all year. Does best in well-drained, sandy soil.

18 to 24 inches.....	\$.40 Each	\$ 4.00 Doz.
24 to 36 inches.....	.50 Each	5.00 Doz.
2 to 3 feet.....	.75 Each	7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

A Garden with Flowers from Spring to Fall—

is possible if you make it with Flowering Shrubs—selected according to their sequence in bloom. First, the golden yellow Forsythia; Redbuds and Dogwoods, Spireas and Weigelas, Lilacs and Mock Orange, Snowballs and Roses of Sharon. Then come the climbers which help to round out the "Spring to Fall" shrub collection.

DEUTZIA

One of the most desirable shrubs, though varying in height and habit, bloom alike in dainty bell or tassel-shaped flower. They will thrive in almost any situation; are extremely ornamental and make possible many striking effects in garden or border plantation.

DOUBLE WHITE DEUTZIA (*D. crenata flora plena alba*)—A tall growing variety producing an abundance of double white flowers in April.

2 to 3 feet.....	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.
5 to 6 feet.....	1.00 Each	10.00 Doz.

SLENDER DEUTZIA (*D. gracilis*)—A dwarf growing, dense, bushy; its drooping branches are wreathed with pure white flowers in the late spring. Will grow well in shade.

18 to 24 inches.....	\$.50 Each	\$ 5.00 Doz.
2 to 3 feet.....	.75 Each	7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

LEMOINE DEUTZIA (*D. lemoinei*)—A dwarf growing but the stems are borne erect. Has medium large flowers of pure white produced in cone-shaped heads. Reaches a height of 3 to 4 feet.

18 to 24 inches.....	\$.50 Each	\$ 5.00 Doz.
2 to 3 feet.....	.60 Each	6.00 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

PRIDE OF ROCHESTER (*D. scabra* —)—A tall, upright shrub, reaching a height of 6 to 8 feet; blooms appear before any of the other varieties. They are large and double with the outer petal tinged with pink.

2 to 3 feet.....	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.
5 to 6 feet.....	1.00 Each	10.00 Doz.

EUONYMUS

BROOK EUONYMUS (*E. americanus*)—A native shrub that grows very erect and is attractive at all seasons. Forms a peculiar rose-colored fruit, which opens in the fall and turns a scarlet color. Very decorative.

PEARLBUSH (*Exochorda*)

PEARLBUSH (*E. grandiflora*)—An upright shrub that prefers a moist fertile soil and grows 6 to 10 feet high. It takes its name from the early buds which resemble pearls strung on slender threads. The buds later open up into long gleaming sprays of pure white. Exceptional showy and different.

2 to 3 feet.....	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.
5 to 6 feet.....	1.00 Each	10.00 Doz.

FORSYTHIA

Splendid old shrubs with bright yellow bell-shaped flowers, which appear very early in the spring before the leaves come out. Sometimes they are confused with the winter jasmine. The upright forms make excellent tall hedges, and also good fillers for massed shrubs.

FORTUNE FORSYTHIA (*F. suspensa fortunei*)—This is the most used variety on account of it being the most upright in growth. Useful in the back row of groups. Very vigorous grower and prolific bloomer.

GREENSTEM FORSYTHIA (*F. viridissima*)—The stems and foliage are a bright green and it stands the heat and drought best of all varieties; not entirely hardy in northern latitudes.

WEeping FORSYTHIA (*F. suspensa*)—A graceful shrub with slender, limply drooping branches covered with bright rosettes of yellow flowers. Very attractive when trained up over a trellis or garden wall.

2 to 3 feet.....	\$.50 Each	\$5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.
5 to 6 feet.....	.85 Each	8.50 Doz.

(These prices apply to all of the above varieties)

A proper planting of the shrubs, trees and plants is just as essential to the home as a beautiful stage setting is to a successful play.

HYDRANGEAS

Our stock of Hydrangeas is unsurpassed in quality and our prices will be found much lower than those made by most nurserymen. As a rule, Hydrangeas are much more effective when planted in masses and our low prices permit them to be used freely in this way.

OAKLEAF HYDRANGEA (*H. quercifolia*)—A medium shrub, the foliage, similar in form to an oak leaf, is a rich deep green in summer and a claret color in the fall. Large showy panicles of pure white flowers are produced in mid-summer. Attains a height of 3 to 4 feet and grows well in sun or shade.

18 to 24 inches.....	\$.75 Each	\$ 7.50 Doz.
24 to 36 inches.....	1.00 Each	10.00 Doz.
3 to 4 feet.....	1.25 Each	12.50 Doz.

OTAKSA HYDRANGEA (*H. opuloides otaksa*)—A strong grower and profuse bloomer in the South. The bloom is generally blue, but vary from a pink to blue, depending upon the condition of the soil. If the soil is of a clay formation the blooms will be blue and if of black or sandy soil, pink.

18 to 24 inches.....	\$.75 Each	\$ 7.50 Doz.
24 to 36 inches.....	1.50 Each	15.00 Doz.

PEEGEE HYDRANGEA (*H. paniculata grandiflora*)—The old garden favorite. Has the largest cluster of flowers of all the shrubs. In July the plant is enveloped with a mass of pure white blooms and generally last for a long time. Large beds when kept at a uniform development are extremely showy. If planted in rich soil and pruned back every spring before the leaf buds open, they will grow to dense, dwarf clumps of compact form and produce larger clusters.

18 to 24 inches.....	\$.50 Each	\$ 5.00 Doz.
24 to 36 inches.....	.60 Each	6.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.
4 to 5 feet.....	1.00 Each	10.00 Doz.

Borders of PeeGee Hydrangeas

HYDRANGEAS (Continued)

SMOOTH HYDRANGEA (*H. arborescens*)—An attractive, upright shrub with bright green foliage and large creamy white flowers. A native plant and ideal for garden use or large plantings.

18 to 24 inches.....	\$.50 Each	\$ 5.00 Doz.
24 to 36 inches.....	.75 Each	7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

SNOWHILL HYDRANGEA (*H. arborescens grandiflora*)—A compact, round-headed shrub of medium height; foliage is large and of a bright green color. The flowers, similar to the familiar "snowball" in appearance, are white and bloom from early June to late September. Excellent for solid low borders or in foundation plantings which will allow for about four feet.

18 to 24 inches.....	\$.50 Each	\$ 5.00 Doz.
24 to 36 inches.....	.75 Each	7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

ALTHEA (*Hibiscus*)

SHRUB-ALTHEA (*H. syriacus*)—Also called "Rose of Sharon," an old garden favorite of upright growth and makes one of the best shrubs for a tall hedge or screen. Blooms all summer in a variety of colors, both double and single and pure white to dark purple flowers.

Boule de feu—Double, bright red.

Jeanne d'Arc—Double, pure white.

Paeoniflorus—Double, rosy pink.

Totus Albus—Single, pure white.

Violet Clair—Double, purple.

Meehan (Variegated Foliage)—Single, violet.

Hydrangeas

PRICES OF SHRUB-ALTHEA

18 to 24 inches.....	\$.35 Each	\$3.50 Doz.
2 to 3 feet.....	.50 Each	5.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.

ST. JOHNSWORT (*Hypericum*)

GOLDFLOWER (*H. moscricianum*)—A beautiful dwarf shrub that seldom gets more than two feet high. Of compact habit and attractive foliage. The flowers are similar to single yellow roses and are produced in great profusion in June. Excellent for massing or planting among perennials.

18 to 24 inches.....	\$.50 Each	\$5.00 Doz.
24 to 36 inches.....	.60 Each	6.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.

JAPANESE HYPERICUM (*H. patulum*)—Similar to the Goldflower but slightly taller. Produces a great profusion of yellow flowers with a fringe of petals, like yellow roses, with anthers in the center. Nearly evergreen in the South.

18 to 24 inches.....	\$.50 Each	\$5.00 Doz.
24 to 36 inches.....	.60 Each	6.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.

A setting of beautiful flowering shrubs around the home makes a home out of a house.

Shrub-Althea—Rose of Sharon

JASMINE (*Jasminum*)

WHITE JASMINE (*J. officinale*)—Generally considered as a vine. Its small, dark glossy green leaves, and fragrant star-shaped flowers make a pleasing effect when planted on banks.

ITALIAN JASMINE (*J. humile*)—A shrub with bright green arching branches and bright yellow flowers in summer. Nearly evergreen and thrives best on moist, loamy soil and sunshine.

15 to 24 inches\$.50 Each	\$5.00 Doz.
2 to 3 feet60 Each	6.00 Doz.

(These prices apply to both varieties)

WINTER JASMINE (*J. nudiflorum*)—The Jasmine that blooms in the late winter, bearing a profusion of bright, yellow tubular flowers before the small green leaves appear. Nearly Evergreen and grows to a height of about three feet.

15 to 24 inches\$.50 Each	\$5.00 Doz.
2 to 3 feet60 Each	6.00 Doz.
3 to 4 feet75 Each	7.50 Doz.

KERRIA

Kerria

KERRIA (*K. japonica*) — Sometimes called Globe Flower, is another old garden favorite that becomes a mass of golden yellow, globe-shaped flowers in the spring. The branches remain green in the winter.

DOUBLE KERRIA (*K. japonica flore plena*) — Similar to the single flowered variety except with double yellow blooms.

15 to 24 inches\$.50 Each	\$5.00 Doz.
2 to 3 feet75 Each	7.50 Doz.

CRAPEMYRTLE (*Lagerstroemia*)

CRAPEMYRTLE (*L. indica*)—The most popular and most characteristic of Southern shrubs. Of upright, open habit with small, dark green foliage and large clumps of the beautiful flowers borne throughout the summer. We are offering the four colors: pink, white, crimson and purple.

2 to 3 feet\$.50 Each	\$ 5.00 Doz.
3 to 4 feet75 Each	7.50 Doz.
4 to 5 feet1.00 Each	10.00 Doz.
5 to 6 feet1.50 Each	15.00 Doz.

The love of flowers, encouraged in a child, is a great asset in the building of character.

BUSHCLOVER (*Lespedeza*)

SHRUB-BUSHCLOVER (*L. bicolor*)—A beautiful little shrub with drooping branches. Produces rosy-purple flowers in late summer. Attains a height of three to five feet and will grow in poor soil.

2 to 3 feet\$.50 Each	\$ 5.00 Doz.
3 to 4 feet75 Each	7.50 Doz.
4 to 5 feet1.00 Each	10.00 Doz.

BUSH HONEYSUCKLE (*Lonicera*)

MORROW HONEYSUCKLE (*L. morrowi*)—A vigorous spreading shrub with dark green leaves; the many small white flowers appearing early in the spring are followed by bright red berries make it very attractive.

TA TARIAN HONEYSUCKLE (*L. tatarica*)—A large growing variety with dark green foliage and pink colored flowers and crimson berries. Will not stand a drouth.

WINTER HONEYSUCKLE (*L. fragrantissima*)—A very dependable sort, round headed; foliage remains nearly all winter and from mid-winter it is covered with fragrant, creamy white flowers.

2 to 3 feet\$.50 Each	\$ 5.00 Doz.
3 to 4 feet75 Each	7.50 Doz.
4 to 5 feet1.00 Each	10.00 Doz.

(These prices apply to all three varieties)

Crapemyrtle

THE CRABS (*Malus*)

BECHTEL CRAB (*M. ioensis plena*)—A symmetrical round-headed tree, covered with a profusion of double flowers in late spring. They are of the most delicate shade of pink and resemble semi-double roses. One of the finest flowering trees for the lawn.

18 to 24 inches.....	\$.75 Each	\$ 7.50 Doz.
24 to 36 inches.....	1.00 Each	10.00 Doz.
3 to 4 feet.....	1.25 Each	12.50 Doz.

JAPANESE FLOWERING CRAB (*M. floribunda*)—The best of the Asiatic Crabs. Bears large quantities of rose-colored flowers in the spring and in the fall have a highly ornamental red fruit.

4 to 5 feet.....	\$.75 Each	\$ 7.50 Doz.
------------------	-------------	--------------

WILD SWEET CRAB (*M. coronaria*)—This is the tree, the fruit of which makes good jelly. It is round, rather open headed and produces a profusion of pinkish white, fragrant flowers in early spring.

4 to 5 feet.....	\$1.00 Each	\$10.00 Doz.
------------------	-------------	--------------

MOCKORANGE (*Philadelphus*)

An ornamental shrub, the flowers of which smell like those of the orange, and the leaves taste like cucumbers. One of the common names of this plant is "Syringa" which is also the botanical name of the lilac, to which they have not the slightest affinity. They are all quite hardy.

BIG SCENTLESS MOCKORANGE (*P. grandiflorus*)
A fine old variety with very large white flowers, which bloom early in the spring.

SWEET MOCKORANGE (*P. coronarius*)—A tall, upright shrub with fragrant, pure white flowers.

2 to 3 feet.....	\$.50 Each	\$5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.

LEMOINE MOCKORANGE (*P. lemoinei*)—A dwarf variety useful in landscape work. Very floriferous.

AVALANCHE MOCKORANGE (*hort. variety of P. lemoinei*)—A very desirable dwarf plant with single white flowers.

MONT BLANC MOCKORANGE (*hort. variety of P. lemoinei*)—One of the best of the dwarf varieties.

2 to 3 feet.....	.75 Each	\$ 7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

FLOWERING ALMOND (*Prunus*)

FLOWERING ALMOND (*P. glandulosa*)—A showy small shrub with double flowers and attractive foliage. We can supply either the pink or white variety.

2 to 3 feet.....	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.
4 to 5 feet.....	1.00 Each	10.00 Doz.

Japanese Flowering Crab

POMEGRANATE (*Punica*)

POMEGRANATE (*P. granatum*)—A medium size shrub with handsome dark green, glossy foliage, remaining fresh late in the fall. The beautiful crimson flower that blooms in the summer is followed by large edible fruit which makes this one of the most desirable ornamental shrubs for the lower South.

2 to 3 feet.....	\$.75 Each	\$ 7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.
4 to 5 feet.....	1.50 Each	15.00 Doz.

BUCKTHORN (*Rhamnus*)

CAROLINA BUCKTHORN (*R. caroliniana*)—A small shrub or tree with large dark green shiny leaves, brightly colored in the fall with red berries which turn blackish-purple; generally remain on the stems until after frost.

4 to 5 feet.....	\$.75 Each	\$ 7.50 Doz.
6 to 8 feet.....	1.50 Each	15.00 Doz.

JETBEAD (*Rhodotypos*)

JETBEAD (*R. kerrioides*)—Of medium height, very graceful with small light green foliage and white flowers, followed by small bunches of glistening black berries which stay on the bunches all summer and winter.

3 to 4 feet.....	\$.50 Each	\$ 5.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.
5 to 6 feet.....	1.00 Each	10.00 Doz.

A cordial invitation is extended to all our friends and customers to visit us at our nurseries at Hogansville, Georgia.

SUMAC (*Rhus*)

COMMON SMOKETREE (*R. cotinus*)—Remarkable for its feathery inflorescence, purplish in color suggesting smoke. Useful in mass planting.

FRAGRANT SUMAC (*R. canadensis*)—Generally a low spreading shrub in its wild state. Foliage turns a deep red in autumn. Bears yellow flowers in the spring and scarlet berries in early summer. Fine for rock gardens.

2 to 3 feet-----	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet-----	.75 Each	7.50 Doz.
4 to 5 feet-----	1.00 Each	10.00 Doz.

LOCUST (*Robinia*)

ROSE-ACACIA (*R. hispida*)—A shrub of medium height resembling the locust tree. Flowers are a beautiful rose color, shaped like a sweet pea, during early spring. Branches are covered with hair-like thorns over their entire surface. Very conspicuous plant and thrives in the shade.

2 to 3 feet-----	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet-----	.75 Each	7.50 Doz.

SPIREA (*Spiraea*)

Anthony Waterer Spirea

ANTHONY WATERER SPIREA—A dwarf, bushy type; flowers in flat clusters, bright rosy crimson. Blooms almost continuously and is one of the few good showy red flowered shrubs sufficiently dwarf to be used in foundation plantings or in the low front row of shrub groups. It is the most popular of the summer spires.

18 to 24 inches-----	\$.50 Each	\$5.00 Doz.
2 to 3 feet-----	.60 Each	6.00 Doz.
3 to 4 feet-----	.75 Each	7.50 Doz.

The spireas are a deciduous, hardy shrubs, or herbaceous perennials of over fifty varieties. All of them prefer the sun and are well adapted to the South. They make beautiful plants for the lawn and grow in almost any situation, and continue in bloom a long time.

BRIDALWREATH SPIREA (*S. prunifolia*)—A shrub of medium height with graceful arching branches. In the spring the branches are covered with small, button-like double white flowers.

2 to 3 feet-----	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet-----	.60 Each	6.00 Doz.
4 to 5 feet-----	.75 Each	7.50 Doz.

REEVES SPIREA (*S. reevesiana*)—A beautiful form that hugs the ground closely forming a rounded mass. Foliage is a pale green and bears double white flowers late in spring.

VAN HOUTTE SPIREA (*S. vanhouttei*)—Probably the most popular variety today, graceful in habit, thrives in any soil or situation. Its gracefully arching form is very effective when the branches are covered with the round, white clustered flowers.

BILLIARD SPIREA (*S. billiardi*)—A hardy shrub of upright growth. Purplish-red flowers are produced almost continuously during the summer. Useful as a cut flower.

2 to 3 feet-----	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet-----	.75 Each	7.50 Doz.

(These prices apply to the above three varieties)

THUNBERG SPIREA (*S. thunbergi*)—Forms a dense fluffy bush, the feathery foliage, which is a peculiar but pleasing shade of yellowish green, changing to red and orange in the autumn.

18 to 24 inches-----	.50 Each	5.00 Doz.
2 to 3 feet-----	.75 Each	7.50 Doz.

Weigela

SNOWBELL (*Styrax*)

JAPANESE SNOWBELL (*S. japonica*)—A most graceful shrub, with spreading branches and numerous drooping racemes of white, fragrant, bell-shaped flowers. A favorite for specimen planting, for in addition to the showy blooms the branches are covered with a pleasing bright green foliage. Makes a tall growth, either in sun or shade.

2 to 3 feet.....	\$.50 Each	\$5.00 Doz.
------------------	-------------	-------------

SNOWBERRY (*Symphoricarpos*)

SNOWBERRY (*S. racemosus*)—Handsome dark green foliage and a profusion of large white berries in the fall make it conspicuous in any border planting.

CORALBERRY (*S. vulgaris*)—Although this plant produces greenish red flowers in summer, its chief beauty is found in the wealth of red or purplish berries which follow the blooms and cling to the branches during the winter. Very useful for planting on banks to keep from washing out.

2 to 3 feet.....	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.
4 to 5 feet.....	1.00 Each	10.00 Doz.

(These prices apply to both varieties)

TAMARIX

AFRICAN TAMARIX (*T. africana*)—Slender, light green foliage and small pink flowers. The branches droop very gracefully and attain a height of 8 to 10 feet.

3 to 4 feet.....	\$.50 Each	\$5.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.

FIVESTAMEN TAMARIX (*T. pentandra*)—Bright green feathery foliage and deep pink flowers appearing in May and lasting all summer. Height 6 to 8 feet.

2 to 3 feet.....	\$.40 Each	\$4.00 Doz.
3 to 4 feet.....	.50 Each	5.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.

TAMARIX (Continued)

JUNIPER TAMARIX (*T. juniperina*)—Foliage is a bright green and flowers a pink color. Tall growing and very ornamental.

2 to 3 feet.....	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.
4 to 5 feet.....	1.00 Each	10.00 Doz.

VIBURNUM

COMMON SNOWBALL (*V. opulus sterile*)—A shrub that is familiar to every one. Becomes covered in the early spring with perfect balls of snowy white flowers.

EUROPEAN CRANBERRY BUSH (*V. opulus*)—Handsome, dense, brilliant green foliage; large bunches of crimson berries which persist on winter bare branches.

JAPANESE SNOWBALL (*V. tomentosum plicatum*)—A beautiful variety of compact growth with brownish green leaves and snowball-like blooms of pure white in June.

2 to 3 feet.....	\$.50 Each	\$5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.

(These prices apply to all three varieties)

Tamarix

CHASTE-TREE (*Vitex*)

LILAC CHASTE-TREE (*V. agnus-castus*)—A tall growing shrub with showy dark green leaves, deeply cut to a star shape. The flowers are a delicate blue, borne in clusters on long spikes from terminal shoots in mid-summer. They have a spicy fragrance and coming as they do in mid-summer add wonderfully to any planting.

2 to 3 feet.....	\$.50 Each	\$5.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.

WEIGELA

One of the best all-round shrubs for the lawn; of medium height with great masses of flowers in late spring. Prefer moist loamy soil with full sun or partial shade.

PINK WEIGELA (*W. rosea*)—Flowers open a pale pink and turn to a deep pink. Very popular and a vigorous grower.

SNOW WEIGELA (*W. candida*)—Flowers pure white.

2 to 3 feet.....	\$.50 Each	\$5.00 Doz.
3 to 4 feet.....	.60 Each	6.00 Doz.
4 to 5 feet.....	.75 Each	7.50 Doz.

EVA RATHKE—A smaller, less vigorous variety with crimson flowers that bloom all summer.

2 to 3 feet.....	\$.75 Each	\$ 7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.

Ornamental Deciduous Trees

A house never looks so well as when it is glimpsed between the arching branches of a nearby tree, or when it is nestled under the sheltering arm of a large tree.

Trees are a protection from the rigors of winter, and by transpiration they materially freshen the atmosphere during the summer. A tree should be chosen for its form, color, texture and general habit of growth—in other words, for its contribution to the picture. The ultimate effect to be produced must be visualized and a decision made as to where a round, pointed or triangular outline is wanted; where a light feathery texture or a dense mass is desirable, and where the colors must blend or contrast to strike an emphatic note.

Trees selected for street and avenue planting should be symmetrical in character; long lived and should not be readily susceptible to injury from insects and smoke. For narrow streets the American elm is one of the best trees on account of its high-headed characteristic growth. Its tall vase-like form enables it to reach above houses that may not be set far back. The low, compact-headed types, such as the sugar maple, pin oak and red oak ought to be planted only on wide streets.

There are two kinds of specimen plants; those which are used as single specimens, with full space allowed for their normal development, like the Japanese maples, dogwood, birch, magnolia, silk tree, and those which are used as ascent trees, as the Lombardy, Pyramidal Tuliptree on account of their columnar or pyramidal habit of growth. All of our trees are hardy, field grown stock and when digging them great care is taken to keep the root system intact. With reasonable care they will thrive and become a real part of your home.

THE MAPLES (*Acer*)

NORWAY MAPLE (*A. platanoides*)—A large handsome tree with spreading branches and a compact, round head. Splendid for edging avenues as the trees make a uniform growth. The leaves are a bright green and assume a bright yellow-hue before they drop. The leaves are preceded by an abundance of yellow-green blossoms. H. 60—S. 60.

6 to 8 feet.....	\$1.25 Each	\$12.50 Doz.
8 to 10 feet.....	2.00 Each	20.00 Doz.
10 to 12 feet.....	3.00 Each	30.00 Doz.

SILVER MAPLE (*A. dasycarpum*)—Also called white Maple, is a quick growing tree which forms a large round head with an open top. Its foliage, pale green above and almost white beneath, makes a very delightful shade. Grows in almost any soil. Blooms very early in the spring; leaves appear promptly and remain until late fall. H. 70-S. 70.

6 to 8 feet.....	\$.75 Each	\$ 7.50 Doz.
8 to 10 feet.....	1.00 Each	10.00 Doz.
10 to 12 feet.....	1.50 Each	15.00 Doz.

JAPANESE DWARF SILVERLEAF MAPLE (*A. palmatum argentea*)—A low growing dwarf tree similar to the Bloodleaf Maple in habit. Its silver colored foliage, the tips of which are tinged with pink, make it a very striking specimen. Reaches a height of 10 to 12 feet.

2 to 3 feet.....	\$1.50 Each	\$15.00 Doz.
3 to 4 feet.....	2.50 Each	25.00 Doz.
4 to 5 feet.....	3.50 Each	35.00 Doz.

Silver Maple

RED MAPLE (*A. rubrum*)—Also called scarlet or swamp maple is one of the most widely distributed of American trees. Its leaves are the smallest of any of the native maples, but its growth is large and of rather upright outlines. It is one of the few trees succeeding well near the ocean. Has bright red blossoms before the leaves appear, and the young leaves and fruits are also red. The mature leaves begin to color early, some branches assuming brilliant reds and yellows.

6 to 8 feet.....	\$.75 Each	\$ 7.50 Doz.
8 to 10 feet.....	1.00 Each	10.00 Doz.
10 to 12 feet.....	1.50 Each	15.00 Doz.

BLOODLEAF JAPANESE MAPLE (*A. palmatum atropurpureum*)—Extremely handsome shrub of dense though graceful habit. Has elegant foliage which is beautiful, especially in spring with delicate shades of green and red, and again in the autumn, when the leaves assume the most striking tints.

2 to 3 feet.....	\$2.50 Each	\$25.00 Doz.
3 to 4 feet.....	3.50 Each	35.00 Doz.
4 to 5 feet.....	4.50 Each	45.00 Doz.

SUGAR MAPLE (*A. saccharum*)—Often called Hard Maple, is especially adapted to gravelly soils. It is oval-headed, large and handsome, having red blossoms which individually are inconspicuous but in mass are showy early in the spring before the leaves appear. The leaves come early, but in late summer they begin to turn brilliant yellow and red and drop before most other leaves. H. 60-S. 40.

6 to 8 feet.....	\$1.00 Each	\$10.00 Doz.
8 to 10 feet.....	1.50 Each	15.00 Doz.
10 to 12 feet.....	2.00 Each	20.00 Doz.

Mimosa Tree

ALBIZZIA

SILKTREE or MIMOSA (*A. julibrissin*)—A small tree of great grace and beauty; low spreading top; foliage finely pinnate and a wealth of pink flowers in summer. H. 20 to 25.

4 to 5 feet	\$.75 Each	\$ 7.50 Doz.
6 to 8 feet	1.00 Each	10.00 Doz.
8 to 10 feet	1.50 Each	15.00 Doz.

BIRCH (*Betula*)

WHITE BIRCH (*B. alba*)—An extremely graceful tree of moderately quick growth; bark almost white and branches slightly drooping with small glossy green leaves. When grouped before evergreens they are particularly attractive in the winter. A native of moist places but will do well on dry ground.

6 to 8 feet	\$.75 Each	\$ 7.50 Doz.
8 to 10 feet	1.00 Each	10.00 Doz.
10 to 12 feet	2.00 Each	20.00 Doz.

CATALPA

UMBRELLA CATALPA (*C. bignonioides nana*)—Very popular because of its straight stem and symmetrical roundish head which resembles an umbrella. The tops are dwarf and while they do not grow very rapidly their wide leaves give them the appearance of much larger trees. Foliage is very pleasing and the effect obtained when planted in pairs along walks, drives or entrances is greatly admired. Need rather rich, moist soil. H. 6 to 8 feet.

2 Year heads	\$1.50 Each	\$15.00 Doz.
3 Year heads	3.00 Each	30.00 Doz.

HACKBERRY (*Celtis*)

SUGARBERRY (*C. Mississippensis*)—A medium-sized, open oblong-headed tree with green leaves similar to the elm but smoother. The name "sugarberry" comes from the sweet purple-orange or almost black berries that are borne in the early fall. Thrives on most any soil and reaches a height of 50 feet and spread of 40 feet.

4 to 5 feet	\$.50 Each	\$ 5.00 Doz.
6 to 8 feet	.75 Each	7.50 Doz.
8 to 10 feet	1.25 Each	12.50 Doz.
10 to 12 feet	1.75 Each	17.50 Doz.

REDBUD (*Cercis*)

AMERICAN REDBUD (*C. canadensis*)—A small native tree with heart-shaped foliage. Has a conspicuous, bright purplish-red, pea-shaped flower which appears in numerous clusters along the small branches before the leaves in the early spring. Can be used in heavy mass planting of shrubs, with Dogwood or against evergreens or White Birch for a pleasant contrast.

4 to 5 feet	\$.50 Each	\$ 5.00 Doz.
6 to 8 feet	.75 Each	7.50 Doz.
8 to 10 feet	1.00 Each	10.00 Doz.
10 to 12 feet	1.50 Each	15.00 Doz.

DOGWOOD (*Cornus*)

WHITE DOGWOOD (*C. florida*)—A native tree well known to every one. Its white blossoms are conspicuous, coming in early spring. The foliage is attractive all summer; in the fall, colors beautifully with brilliant scarlet berries that hang on most of the winter. Can be used as a specimen or in groups.

3 to 4 feet	\$.75 Each	\$ 7.50 Doz.
4 to 5 feet	1.00 Each	10.00 Doz.
5 to 6 feet	1.50 Each	15.00 Doz.
6 to 8 feet	2.00 Each	20.00 Doz.

PINK DOGWOOD (*C. florida rubra*)—Similar to the white except that its flowers are a beautiful pink. The two varieties planted together make a charming combination.

3 to 4 feet	\$ 3.50 Each	\$35.00 Doz.
4 to 5 feet	4.50 Each	45.00 Doz.
6 to 8 feet	6.00 Each	60.00 Doz.

TULIPTREE (*Liriodendron*)

TULIPTREE (*L. tulipifera*)—One of the finest of native trees, reaching a height of 60 to 100 feet. It has a narrow pyramidal head which in older age becomes more spreading. The leaves are simple; dark green in summer, turning to a clear yellow in the fall. The greenish-yellow tulip-shaped flowers appear in April. Useful for street and lawn planting, also valuable for timber.

6 to 8 feet	\$.75 Each	\$ 7.50 Doz.
8 to 10 feet	1.00 Each	10.00 Doz.
10 to 12 feet	1.50 Each	15.00 Doz.

Umbrella Catalpa

Southern Magnolia

MAGNOLIA

SOUTHERN MAGNOLIA (*M. grandiflora*)—Called the evergreen magnolia, one of the handsomest trees in the South. It grows to be a large oval-headed tree and bears beautiful large white blossoms in late spring or early summer. Thrives best in not too dry a soil and where the temperature seldom falls to zero.

2 to 3 feet.....	\$.75 Each	\$ 7.50 Doz.
3 to 4 feet.....	1.00 Each	10.00 Doz.
4 to 5 feet.....	1.50 Each	15.00 Doz.
6 to 8 feet.....	2.00 Each	20.00 Doz.

CHINABERRY (*Melia*)

TEXAS UMBRELLA TREE (*M. a. umbraculiformis*)—Has a dense, spreading, umbrella-like head which is very formal and symmetrical. Very useful for formal effects.

2 to 3 feet.....	\$.50 Each	\$ 5.00 Doz.
3 to 4 feet.....	.75 Each	7.50 Doz.
4 to 5 feet.....	1.25 Each	12.50 Doz.
5 to 6 feet.....	1.50 Each	15.00 Doz.

HOGANSVILLE NURSERIES, Hogansville, Ga.

Gentlemen: In the past several years we have bought several thousand dollars worth of plants of different kinds for our yard and some of our residences, and every one of them without exception have come from your place, and the service and success we have had with your plants has been all that could be desired, as of all the plants we have put out we have lost less than one per cent, and we feel certain any one wanting plants that you have in stock will be well pleased with the quality and service, that you will render if it is up to the standard you have set with us.

Very truly yours,
LANETT BLEACHERY & DYE WORKS.
J. A. Simmons, Supt.

POPLAR (*Populus*)

LOMBARDY POPLAR (*P. nigraitalica*)—A true Italian poplar; particularly suited for planting in poor soil where most trees would fail. It is a tall columnar tree adapted for formal effects or on narrow lanes.

6 to 8 feet.....	\$.50 Each	\$ 5.00 Doz.
8 to 10 feet.....	.75 Each	7.50 Doz.
10 to 12 feet.....	1.00 Each	10.00 Doz.
12 to 14 feet.....	1.50 Each	15.00 Doz.

Lombardy Poplars

PLANETREE (*Platanus*)

AMERICAN PLANETREE (*P. occidentalis*)—Known also as the sycamore and buttonwood tree, is a large, open, spreading, quick-growing tree. It frequently attains a height of 140 to 170 feet. The bark is a characteristic feature, scaling off in huge patches and exposing the white new bark. It will stand more pruning and shaping than most trees, which, with its high head, open habit of growth, and light green foliage, giving an impression of airiness with the shade. Valuable as a street tree on account of its ability to withstand the effects of dust and smoke.

6 to 8 feet.....	\$1.00 Each	\$10.00 Doz.
8 to 10 feet.....	1.50 Each	15.00 Doz.
10 to 12 feet.....	2.00 Each	20.00 Doz.
12 to 14 feet.....	2.25 Each	22.50 Doz.

THE OAKS (*Quercus*)

Of the trees available for roadside planting, the oaks are the most desirable. Although some of the handsomest species, such as the white oak and the live oak, are slow growers, others, like the red oak, are rapid growing. In the drier parts of the country, oaks are of slower growth than in the more humid sections and never attain the size of the same species under more favorable conditions, but they are worthy of planting because ultimately they make fine trees. They are hardy, most of them are long lived, and for the most part there are comparatively few diseases and insects that seriously attack them.

LIVE OAK (*Q. virginiana*)—Probably the noblest and most majestic of the oaks of the Southern States. Being an evergreen of slow growth, it is sufficiently open headed to make a good roadside tree, generally 40 to 50 feet in height and sometimes reaching a spread of 100 feet.

3 to 4 feet.....	\$1.00 Each	\$10.00 Doz.
4 to 5 feet.....	1.25 Each	12.50 Doz.
5 to 6 feet.....	1.50 Each	15.00 Doz.
6 to 8 feet.....	2.00 Each	20.00 Doz.

PIN OAK (*Q. palustris*)—Sometimes called the "swamp oak," is a tall tree, conical when young, oval at maturity, with a drooping habit of the lower branches. The leaves are quite finely divided and are a bright glossy green. Comes into leaf late in the spring and holds its foliage late in the fall. Very rapid in growth and can be used for shade, street, lawn or specimen.

SCARLET OAK (*Q. coccinea*)—A large open round-headed tree with leaves more deeply divided than those of the red oak. The leaves turn a brilliant scarlet in autumn, being even more gorgeous than the red oak. Very useful for lawn planting.

6 to 8 feet.....	\$1.00 Each	\$10.00 Doz.
8 to 10 feet.....	1.50 Each	15.00 Doz.
10 to 12 feet.....	2.00 Each	20.00 Doz.

(These prices apply to both of the above)

WATER OAK (*Q. nigra*)—Frequently confused with the willow oak and the laurel oak. Widely planted in the South along streets and in parks as a shade tree. Has roundish head and slender willow-like leaves of a dull bluish green color. When fully grown reaches a height of about 80 feet.

6 to 8 feet.....	\$.75 Each	\$ 7.50 Doz.
8 to 10 feet.....	1.00 Each	10.00 Doz.
10 to 12 feet.....	1.50 Each	15.00 Doz.
12 to 14 feet.....	2.00 Each	20.00 Doz.

Texas Umbrella Tree

Water Oak

WHITE OAK (*Q. alba*)—One of the finest, if not the finest of American trees, with broadly spreading branches that make a round top of more than 80 feet; medium-sized dark green leaves having a lighter undersurface and almost white flaky bark. It is one of the slow-growing trees, but is worthy of extended planting. Thrives on both uplands and bottom lands where it is not too wet; reaches a height of 80 feet.

6 to 8 feet.....	\$.75 Each	\$ 7.50 Doz.
8 to 10 feet.....	1.00 Each	10.00 Doz.
10 to 12 feet.....	1.50 Each	15.00 Doz.
12 to 14 feet.....	2.00 Each	20.00 Doz.

WILLOW OAK (*Q. phellos*)—Sometimes erroneously called water oak. One of the best of the quick-growing trees for use in the South. Frequently used with the water oak for street planting. Has slender willow-like leaves, light green and shiny above but dull and smooth beneath. It is nearly half evergreen in the extreme South, but its foliage does not assume the bright colors of the trees of the red-oak class.

6 to 8 feet.....	\$.75 Each	\$ 7.50 Doz.
8 to 10 feet.....	1.00 Each	10.00 Doz.
10 to 12 feet.....	1.50 Each	15.00 Doz.
12 to 14 feet.....	2.00 Each	20.00 Doz.

West Point, Ga., June 15, 1927.

HOGANSVILLE NURSERIES,
Hogansville, Ga.

Gentlemen: We have been buying shrubs and plants from your nursery for the past several years and our dealings with you have been satisfactory in every way. Everything that you have sold us has been as represented and your prices have been low considering quality of shrubs furnished.

It is a pleasure to do business with you because of the service you render and the conscientious way in which you handle all orders which we have given you.

Yours very truly,

WEST POINT MANUFACTURING CO.

R. W. Jennings, Supt.

Weeping Willow

WILLOW (*Salix*)

WEeping WILLOW (*S. babylonica*)—Too well known to need a lengthy description. One of the best varieties we know of; will give a finish to the lawn which cannot be obtained with any other tree. Quick to take hold when transplanted and thrives with unusual vigor whether planted on moist or dry ground.

4 to 5 feet	----- \$.75 Each	\$ 7.50 Doz.
5 to 6 feet	----- 1.00 Each	10.00 Doz.
6 to 8 feet	----- 1.25 Each	12.50 Doz.
8 to 10 feet	----- 1.50 Each	15.00 Doz.

ELM (*Ulmus*)

AMERICAN ELM (*U. americana*)—Sometimes called the white elm and water elm, is one of the handsomest American trees. It is tall and spreading and when planted as near together as is customary on country roads, the effect of the mature trees is that of an arch formed by the growing together of their spreading tops. Is of rapid growth and long lived.

6 to 8 feet	----- \$.75 Each	\$ 7.50 Doz.
8 to 10 feet	----- 1.25 Each	12.50 Doz.
10 to 12 feet	----- 1.75 Each	17.50 Doz.

A Few Suggestions

Plants should be removed from the box or package as soon as possible after arriving. Sometimes it is not always possible to plant them at once, in which case see that the roots are wet and then place them in a cool, shady place; keeping the roots moist. Plants that are "balled and burlapped" should be set deep enough to entirely cover the wrapping. Do not remove the wrapping material, but plant the entire ball as received. If the plants are from pots, set them considerably deeper than they were in the pot. Do not try to straighten out the root system of potted plants. It is best to shade the trunks of large trees with straw or loosely wound burlap until growth is well advanced. All plants are better for

shade the first few days, especially during the heat of the day.

One of the most important things to do after setting a plant or tree is to thoroughly soak the ground down to the subsoil and leave the surface dished so that the rainfall or future watering will be held. The mulching should be spread over this area and even beyond it, to conserve moisture and keep the ground as cool as possible. Do not allow the mulching to touch the plant. Watering must be kept up from a few days apart to weekly intervals until the plants are well established or even longer if the weather is unduly dry.

Climbing Vines

No group of plants is quite so adaptable and capable of a wide range of use as the vines and creepers because of their permanence, ease of culture, and freedom from insects and diseases. Vines are grown on masonry walls for the beauty of their foliage, and also to soften and add color and shadows to an otherwise blank expanse. They are grown on garden walks as a background for flowering plants, where the delicate tracery of the leaves against the wall, together with interesting flowers on some and fruit on others, contributes a gardenesque quality which is delightful. One of the foremost uses of vines is to provide shade under arbors, pergolas and porches. For this purpose, lateral growing vines with decorative qualities are recommended. The wisteria and grapes are excellent. Vines like the honeysuckle may be grown on wire fences or supports to form an impenetrable barrier where the space is too limited for a screen of trees or a hedge. In placing a trellis or other support against wooden structures it is usually better to secure them with a hinge at the bottom to 4x4-inch posts set firmly in the ground and fasten at their tops with hooks. Then the whole mass of trellis and vine can be unhooked and folded outward onto the ground when it is necessary to paint or remove the vine for any purpose. In planting vines see that they receive sufficient moisture until they become well established. Most vines thrive in places that would be too damp and shady for shrubs and they also make excellent ground covers to hide barren spots and washouts.

AMPELOPSIS

JAPANESE CREEPER (*A. tricuspidata*)—Also known as Boston Ivy; one of the finest hardy climbers we have for covering walls; clings firmly to the smoothest surface. The broad foliage overlaps giving the appearance of shingles. Foliage is glossy green in summer changing to the brightest shades of crimson and yellow in the autumn.

Trumpetreeper

TRUMPET CREEPER

(*Bignonia*)

CHINESE TRUMPET CREEPER

(*B. grandiflora*)

A vigorous woody vine that clings tightly with small roots along its stems. Produces clusters of large, deep orange, trumpet shaped flowers all summer. Will climb to great heights on trees and makes one of the best vines for all purposes.

EUONYMUS

WINTERCREEPER (*E. radicans*)—One of the finest evergreen vines with small, rich green foliage and pink fruits. It is a moderately rapid grower and perfectly hardy. Excellent for covering brick walls, tree trunks, rocky banks as well as vases, baskets and borders of beds.

VARIEGATED WINTERCREEPER (*E. radicans variegata*)—Similar to above but has leaves of green and white which take on a pinkish tinge in the winter.

12 to 15 inches.....	\$.50 Each	\$5.00 Doz.
15 to 18 inches.....	.60 Each	6.00 Doz.
18 to 24 inches.....	.75 Each	7.50 Doz.

(This price applies to both varieties)

(All of the above vines, except those noted, are two years old—\$.50 each—\$5.00 doz.)

CLEMATIS

A handsome twining shrub, quite hardy. They delight in a strong, rich soil and for climbing up stumps of old trees, training to trellises, covering arbors or planting to droop over rock work, no plants are more suitable or will make a more gorgeous display.

JACKMAN CLEMATIS (*C. jackmani*)—Completely covered during the summer with huge violet purple flowers. Very popular.

SWEET AUTUMN CLEMATIS (*C. paniculata*)—A rapid grower with light green shining foliage. The flowers are of medium size, fragrant, pure white and cover the plant with a mass of bloom in mid-summer and fall.

HONEYSUCKLE (*Lonicera*)

TRUMPET HONEYSUCKLE (*L. sempervirens*)—A handsome climbing plant with light green foliage and showy scarlet trumpet shaped flowers.

YELLOW NET JAPANESE HONEYSUCKLE (*L. japonica aureoreticulata*)—Prized for the beauty of its variegated foliage. Flowers are yellow and fragrant.

IVY

(*Hedera*)

ENGLISH IVY
(*H. helix*)

Very attractive effects are possible with this well-known vine. For planting under shrubs and as a ground cover where grass cannot be grown it is invaluable. The large glossy green leaves remain summer and winter. 2-Year vines, 18 to 24 ins.—35c each, \$3.50 doz. 3-Year vines, 3 to 4 feet—50c each, \$5.00 doz.

Ivy Covered Chimney

CLIMBING VINES (Continued)

JESSAMINE (*Gelsemium*)

CAROLINA JESSAMINE (*G. sempervirens*)—A small climbing shrub, with shiny evergreen foliage. Produces clusters of bright yellow, extremely fragrant flowers which are borne in great profusion in the spring.

WISTERIA

A small hardy, deciduous plant, unquestionably the most ornamental, hardy, flowering climber we have. Their lovely panicles of dark purple, light purple and pure white flowers, single and double, are produced in the most wonderful profusion under almost any circumstances. They are altogether without a rival. Useful on pergolas, porches and trellises.

AMERICAN WISTERIA (*W. frutescens*)—A native variety with bluish-purple flowers that bloom later than the Chinese.

CHINESE WISTERIA (*W. sinensis*)—The well-known, rapid growing climber; single, pea-shaped purple flowers borne early in the spring.

WHITE CHINESE WISTERIA (*W. sinensis alba*)—Same as the above, but with white flowers.

LONGCLUSTER WISTERIA (*W. multijuga*)—A very distinct and showy variety. Flowers are borne in loose racemes, sometimes three feet long and are light purple in color. Seldom blooms until about three years old.

All the Wisteria Vines are Two-Year-Old Vines

\$.50 Each.....\$5.00 Doz.

Chinese Wisteria

Hedge Plants

There will be use for a hedge on every place; a tall one for the boundary, to afford protection or to screen out the neighbor's garage; a medium size hedge to edge the terrace, or a low one to outline the flower beds. Plants forming dense hedges are inclined to be slow growers. Medium-sized hedges are used to outline paths, to accent points at the intersection of paths or at other places where the design calls for strength. Low hedges are used to edge a flower bed or as definite lines of demarcation. Hedge plants are set in a single or double row and should be planted in a well-prepared trench. Dig a trench about eighteen inches deep, and spread well-rotted manure that has been mixed with some rich soil in the bottom of the trench. Then cover with a layer of dirt to keep the roots from coming in direct contact with manure. For a hedge over four

feet, the plants are set 24 to 30 inches apart; for a hedge 3 to 4 feet high set 9 to 12 inches apart and for 12 inches high or less, 4 inches apart. Tamp the earth firmly until trench is nearly filled after setting plants, then fill level with loose soil.

We offer strong Privet hedge plants, home grown at

12 to 18 inches.....	\$3.00 per 100
18 to 24 inches.....	4.00 per 100
24 to 30 inches.....	5.00 per 100
